Against International Settlement? Secrecy, Adjudication and the Transformation of International Law.

EMILIE M. HAFNER-BURTON, SERGIO PUIG AND DAVID G. VICTOR
About the Laboratory on International Law and Regulation (ILAR)

The Laboratory on International Law and Regulation (ILAR) is an international, interdisciplinary laboratory that explores when and why international laws actually work. Among scholars, this question has triggered a lively debate that ILAR is engaging with better theories and evidence. ILAR research examines a wide array of issues from environment and energy to human rights, trade and security issues. The ILAR team looks at these issues from the international perspective and also through comparisons across countries.

The Laboratory is part of the School of Global Policy and Strategy at the University of California, San Diego. ILAR gratefully acknowledges anchor funding from the nonpartisan Electric Power Research Institute, BP, plc, the Norwegian Research Foundation and from UC San Diego’s School of International Relations and Pacific Studies.
